

SAP Activate Methodology Level 1 Presentation

SAP Activate Methodology
2024

Public

SAP S/4HANA Supports Live Business

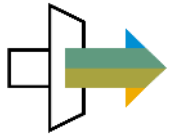

Innovation as a Service is how your business deploys new capabilities, when and how you choose, to build a sustained competitive advantage

Launch quickly and efficiently,
standardized for integration

Self-service to expand capabilities when,
where, and how you choose

Business-Driven Innovation with SAP Activate

Self-service configuration through a clear deployment methodology of solution-specific practices, in a standardized environment

Business Processes
Delivered
Ready to Run

Clear Methodology for
Adoption and
Extensibility

Apps for Adoption
and Extensibility

Speed of Innovation

Greater Productivity

Growth & Scalability

Business Impact

SAP Activate Builds on Proven Techniques

Assemble to Order, Agile, Cloud

Dramatic value, delivered fast

By enabling faster implementation, outcome-based services from SAP help you reduce costs, simplify the IT landscape, and enhance your ability to innovate. According to recent SAP survey results, our services may deliver up to:

40%–60%

Decrease in time to business value

50%

Reduction in consulting fees

50%

Decrease in project costs

40%

Reduction in TCO

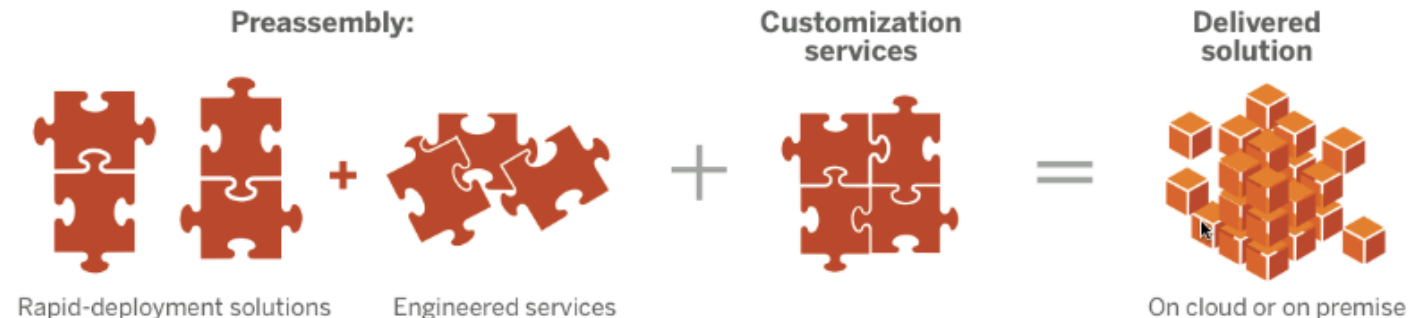

Start with working system, based on SAP Best Practices or SAP Enterprise Management Layer*

Leverage cloud for speed and flexibility.

Here's what you get

Our assemble-to-order delivery model combines one or more **SAP Rapid Deployment solutions** with consulting services, tools, and best practices informed by our 40 years of experience in your industry. Leveraging the power of agile development methods, our approach breaks the software deployment into multiple smaller steps, reducing risk through frequent checkpoints and delivering value at each phase.

Build solution iteratively with frequent feedback loops.

• Only available for SAP S/4HANA On Premise, SAP S/4HANA Cloud, extended edition and SAP S/4HANA Cloud, private edition
• Only included in the subscription package for SAP S/4HANA Cloud, extended edition

SAP *ACTIVATE* Implementation Approach | Implementation Shift

Traditional ERP

“Design to blueprint”

- Consultative approach
- Waterfall project methodology
- Customized solution
- Development, not configuration
- Historically been time consuming and costly

Transformative

“Fit-to-standard”

- Business **owns** the solution
- Lead with ‘**standard**’, best practices
- **Agile, Modular, Scalable**
- Rapid, **repeatable** delivery steps
- **Accelerators**: tools, templates, and content
- **Quicker ROI**

Customer's **expectations** have changed

Software providers have to adapt their **Engagement Models**

Faster deployment

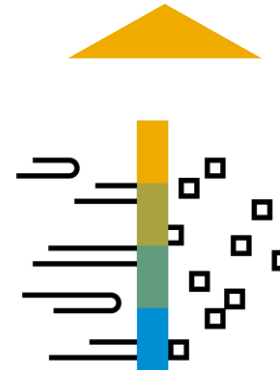

- Full deployment in weeks possible
- Mobile grade user experience = less training

More frequent **innovation** updates

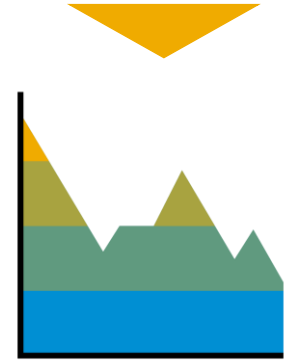

- Multiple innovation releases per year
- Customer feedback a cornerstone of updates

Agile deployment, configuration + integration

- Rapid process configuration
- Faster adoption
- No lengthy upgrade cycles
- Packaged integration

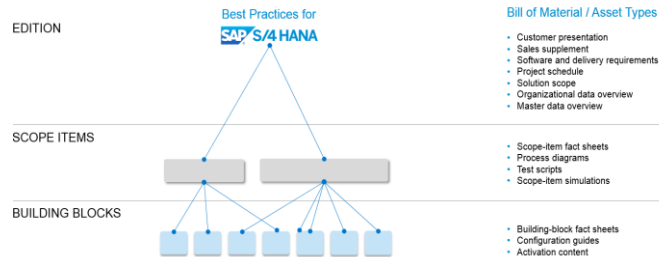

Lower CapEx & faster **Time to Value**

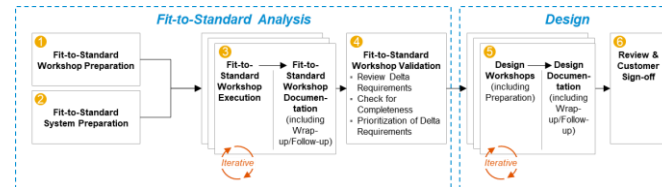

- Lower initial solution and deployment fees
- Lower maintenance or upgrade costs
- Prepackaged integrations

The Advantages | Accelerating Delivery of Outcomes

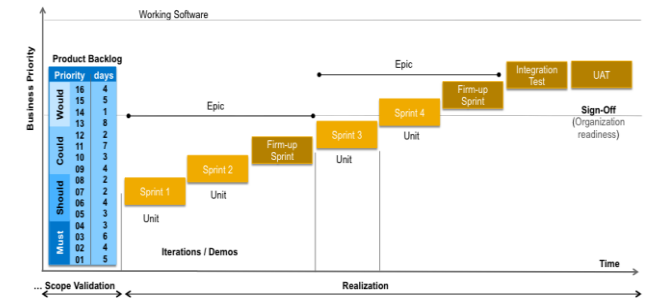

Early available in the project!

Fit-to-Standard and Planning and Design workshops with customer at the steerwheel to drive priorities

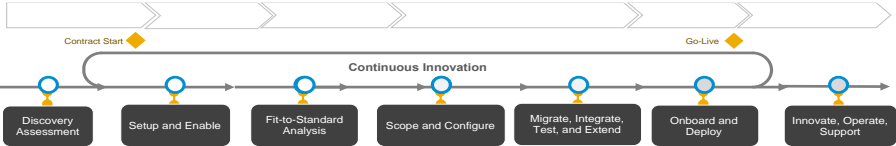

Tailor the solution in short time-boxed sprints with frequent inspection points by the customer

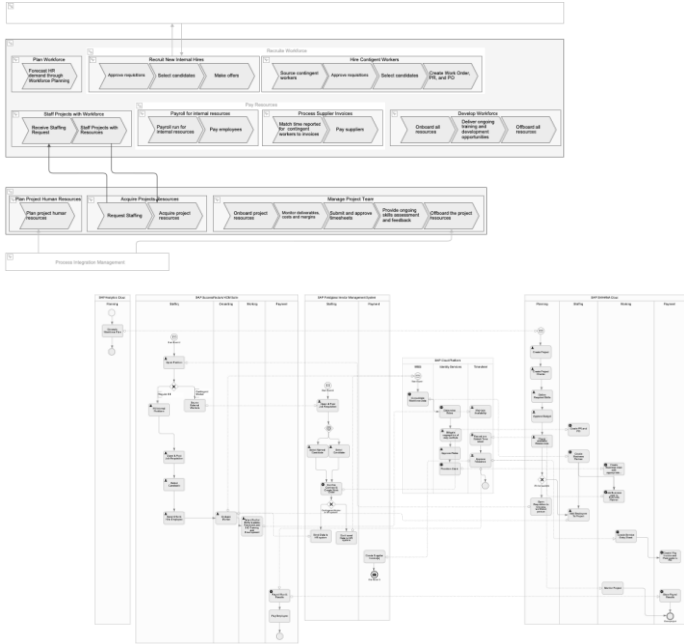

= Customer Value, Efficiency, Speed

Key Elements Driving Successful Deployment

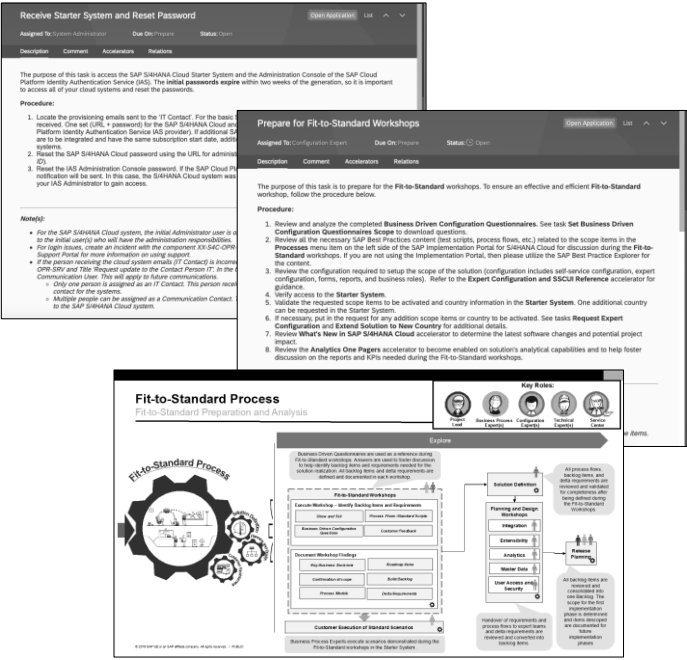

Working together to simplify, streamline and automate deployment

 • Only available for SAP S/4HANA On Premise, SAP S/4HANA Cloud, extended edition and SAP S/4HANA Cloud, private edition
 • Only included in the subscription package for SAP S/4HANA Cloud, extended edition

Digital Transformation to SAP S/4HANA with SAP Activate

(*)
 • Only available for SAP S/4HANA On Premise, SAP S/4HANA Cloud, extended edition and SAP S/4HANA Cloud, private edition
 • Only included in the subscription package for SAP S/4HANA Cloud, extended edition

SAP Activate Methodology Coverage

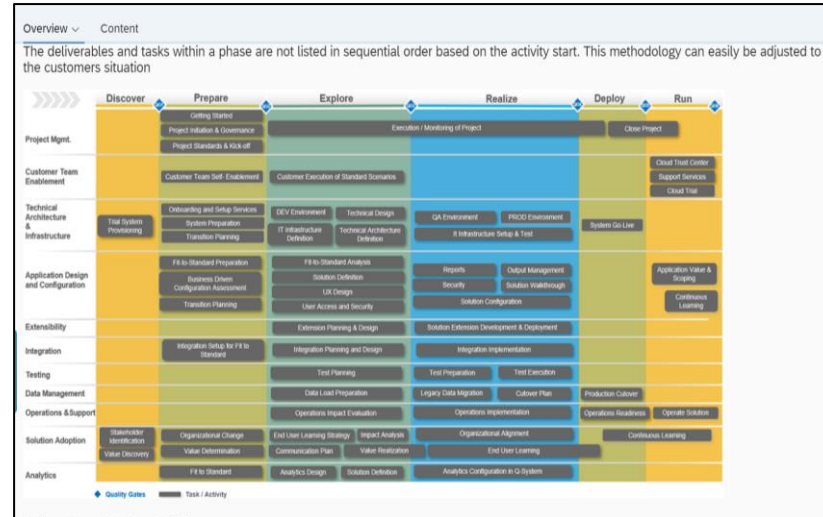

Category	Implementation Roadmap	Product Coverage and purpose	Access links
Cloud solution specific	SAP Activate Methodology for SAP S/4HANA Cloud	SAP S/4HANA Cloud, including extensibility and integrations; covers the Run phase - regression test after quarterly upgrade and adding scope/countries.	Link
	SAP Activate Methodology for RISE with SAP S/4HANA Cloud, private edition	This SAP Activate implementation Methodology will guide the implementation team through a SAP RISE with SAP S/4HANA Cloud, private edition implementation.	Link
	SAP Activate for SAP S/4HANA Cloud 3-system landscape	This Roadmap is intended to guide the implementation team through the SAP S/4HANA Cloud implementation.	Link
	SAP Activate Methodology for SAP S/4HANA Cloud, extended edition	SAP S/4HANA Cloud, extended edition deployment, 5 golden rules, cloud-like deployment approach for this solution.	Link
	SAP Activate Methodology for SuccessFactors	SAP Success Factors implementation guidance, fit-to-standard, configuration, project management.	Link
	SAP Activate Methodology for SAP Service Cloud Roadmap	The Roadmap is intended to guide an implementation team through the Service Cloud product portfolio either as Cloud For Service, Field Service Management, or both.	Link
	SAP Activate Methodology for SAP Data Warehouse Cloud	This Roadmap is intended to guide the implementation team through the Transition to SAP Data Warehouse Cloud.	Link
	SAP Activate Methodology for Intelligent Spend Management Roadmap	This SAP Activate implementation Methodology will guide the implementation team through an SAP Ariba Cloud implementation.	Link
	SAP Activate Methodology for SAP Analytics Cloud	This Roadmap is intended to guide the implementation team through the Transition to SAP Analytics Cloud.	Link
	SAP Activate Methodology for the Intelligent Enterprise	This Roadmap is intended to guide the project team through the implementation of business scenarios enabled by two or more SAP products, integrated within the Intelligent Enterprise.	Link
	SAP Activate Methodology for SAP Sales Cloud Roadmap	The Roadmap is intended to guide an implementation team through the Sales product portfolio either as Cloud for Sales, Commissions or Agent Performance Management.	Link

SAP Activate Methodology Coverage

Category	Implementation Roadmap	Product Coverage and purpose	Access links
On-premise and managed hosting solution specific	Transition to SAP S/4HANA	Guides customers transitioning to SAP S/4HANA in one of the scenarios – new, system conversion, landscape transformation. Supports OP, managed cloud deployment.	Link
	Transition to SAP BW/4HANA	Guides the implementation team through the Transition to SAP BW/4HANA - New, In-Place System Conversion, Remote Conversion, Shell Conversion and Conversion/New Implementation of SAP BPC 11.0.	Link
	SAP S/4HANA Upgrade and Product Integration Roadmap	Provides guidance for customers upgrading their SAP S/4HANA On-Premise solution to the newest release, including integration of SAP EWM and SAP TM.	Link
	SAP Activate methodology for S/4HANA Central Finance	This Roadmap is intended to guide the project team in an implementation project for SAP S/4HANA Central Finance.	Link
General	SAP Activate Methodology for New Cloud Implementations	Intended to guide project teams deploying SAP cloud solutions that do not have solution specific guidance.	Link
	SAP Activate Methodology for Business Suite and On-Premise	Intended to guide project teams deploying SAP on-premise solutions that do not have solution specific guidance.	Link

Enablers for Your Digital Transformation

SAP Activate Tools and Community

SAP Activate Community

- Engage SAP Activate experts
- Ask questions and collaborate
- Stay up to date
- Follow the community at <https://community.sap.com/topics/activate>

SAP Roadmap Viewer

- Access implementation guidance for your digital transformation
- View and download SAP Activate methodology assets and accelerators
- Provide feedback to the Activate team
