

Services and Support Experience Area

Theater Presentations & Panel Discussions

June 5-7, 2018 | Orlando, FL

Session ID	Title	Abstract	Time and Location
SE62188	Realize Innovation with a Next-Generation Global Order and Supply System	Provide a safe and sustainable IT environment with the capabilities you need to meet business objectives now and in the future. Consider how SAP S/4HANA helped Daimler AG create a next-generation global supply system project from beginning to end and how SAP Digital Business Services contributed significantly to the deployment's success.	Tue, June 5: 12:30 – 12:50 p.m. Theater 3 Daimler AG
SE60610	Innovate and Modernize Your Business with Key Strategies and Technologies	Hear executives from a diverse range of industries share their innovation stories and future plans. Discover how SAP Digital Business Services is helping them implement technologies such as SAP S/4HANA, SAP Leonardo Innovation Services, and cloud solutions from SAP to modernize their businesses and adapt to evolving customer needs.	Wed, June 6: 1:00 – 1:20 p.m. Theater 3 CEMPRO, Johnsonville Foods, Mondelez
SE61354	Transform Your Demand-Driven Digital Supply Chain	Embark on a journey to innovate your supply, response, and demand-planning capabilities. Hear Microsoft describe the modernization of its supply chain with SAP Integrated Business Planning and SAP Ariba solutions. Understand how it accelerated its time to realization and innovation with SAP MaxAttention services to help ensure a resilient solution.	Wed, June 6: 3:00 – 3:20 p.m. Theater 3 Microsoft
SE60608	Transform and Improve your Finance Processes	Generate real-time reporting and analytics to guide your business decisions. Observe how PayPal transformed itself with a single source of truth for financial and accounting information. Find out how the SAP Bank Analyzer set of applications, which are powered by SAP HANA, helped the business improve visibility and standardize its processes.	Wed, June 6: 3:30 – 3:50 p.m. Theater 3 PayPal
SE60981	Adopt Instead of Adapt With the Fit-to-Standard Approach to Public Cloud	Learn the secret to swift cloud implementation and continuous innovation in the cloud: standardization. Reduce complexity and give your organization a competitive edge with proven implementation methodologies and standard processes.	Thu, June 7: 11:30 – 11:50 p.m. Theater 3 Carrier UTC, Pacha Group
SE60609	Automate Data Collection from IoT Devices	Support full traceability and reduce costs by capturing data from Internet of Things (IoT) devices. Hear how Lockheed Martin Space Systems helps ensure continuous manufacturing and business processes and predicts production stoppages proactively with an IoT solution designed to track the usage, wear, and tear of a critical piece of equipment.	Thu, June 7: 12:00 – 12:20 p.m. Theater 3 Lockheed Martin Space Systems

Session ID	Title	Abstract	Time and Location
SE62040	Anticipate Customer Needs by Embracing Digital Transformation	Define and adopt strategies to enhance and simplify processes while increasing productivity and profits. Learn how Stara is partnering with SAP Enterprise Support to take innovation to a new level by optimizing its SAP landscape, including co-innovating with SAP, to create a new product to assist customers with planning and execution activity.	Thu, June 7: 3:00 – 3:20 p.m. Theater 3 Stara
SE61999	Deliver the Patient Promise Through World-Class Transformation	Standardize processes to increase value, performance, and scalability while mitigating risk and keeping up with the demand for innovation that uses the latest technology. Hear how CSL Behring worked with its partners to deploy a single, global instance of SAP S/4HANA, enabling it to deliver on its patient promise and remain competitive.	Thu, June 7: 3:30 – 3:50 p.m. Theater 3 CSL Behring
