

Guidelines for Official Titles: SAP Supervisory Board and SAP Executive Board January 2018

INTERNAL

The **SAP Executive Board** is the official governing body of SAP SE, overseeing and deciding on the activities of the company. Subject to European company law, the SAP Executive Board is committed to the interests of SAP and bound by company policy. It provides the SAP Supervisory Board with regular and comprehensive reports about all essential issues of business, corporate strategy, and potential risks.

The SAP Global Managing Board was established in May 2012 in addition to the SAP Executive Board and allowed SAP to appoint a broader range of global leaders to help steer the organization. It proved valuable, especially as we acquired new companies and evolved into a cloud business model. **NOTE: With entering a new phase in SAP's business, the Global Managing Board was discontinued in April 2016. We do no longer use this reference, nor that someone is "a former member of the Global Managing Board."**

Note – Use of company name SAP versus SAP SE:

- **Internal** – Use "SAP Executive Board"
External – Use "Executive Board of SAP SE" with the official name of the company in external texts, press releases, and other materials for external use.
- **Business cards** – Due to space restrictions, you can use the short form "Executive Board, SAP SE" without including "Member of ..." on business cards if necessary.

Titles are listed below in both English and German and are for external use. For more information on internal use and additional guidance, see the detailed PowerPoint presentation (page 5 ff).
