

# Services and Support Experience Area

## ASUG Presentations

June 5-7, 2018 | Orlando, FL

Session ID	Title	Abstract	Time and Location
<a href="#">ASUG10015</a>	Migrating from SAP ERP Central Component 6.0 to SAP S/4HANA: Johnsonville's Story	Learn how Johnsonville successfully migrated its SAP ERP Central Component 6.0 environment on SQL Server to SAP S/4HANA 1610 in nine months. The scope included finance and controlling; materials, plant, and warehouse management; and personnel administration, as well as integration with applications for global trade and advanced planning, SAP SuccessFactors and SAP Concur solutions, and third-party products and add-ons.	Tue, June 5 11:00 - 12:00 p.m. S331A
<a href="#">ASUG11281</a>	PayPal Transforms Finance on the World's Largest Single-Node SAP HANA Database	Learn how PayPal, one of the largest financial technology companies, is transforming finance by leveraging the SAP HANA database on the world's largest single node, a scaled up SAP HANA software system, to provide a single source of truth for finance and accounting information, and to generate real-time reporting and analytics.	Tue, June 5: 11:00 – 12:00 p.m. – S320H
<a href="#">ASUG10964</a>	Transformation Journey for Financial Planning at Microsoft Using SAP Business Planning and Consolidation and Microsoft Azure	Learn how financial planning is being transformed for high tech verticals using the SAP Business Planning and Consolidation application and SAP software on Microsoft Azure. In this session, Microsoft will share what its learned, experiences and technology improvements for business planning and consolidation realized by engaging SAP MaxAttention services, EY, and product teams.	Tue, June 5: 11:00 – 12:00 p.m. – S320G
<a href="#">ASUG10962</a>	Yard Processing with SAP Leonardo Internet of Things and SAP Yard Logistics	SAP Yard Logistics is the dedicated SAP application for managing your yard. Available as an integrated or a standalone application, it offers great scenarios, supporting the latest Internet of Things capabilities such as sensor integration, drone control, image recognition, and positioning tracking using state-of-the-art technologies and 3D visualization.	Tue, June 5: 11:00 – 12:00 p.m. – S330A
<a href="#">ASUG10575</a>	Automating Data Collection from IoT Devices in Manufacturing	Learn how Lockheed Martin Space Systems and SAP teamed up to deliver an integrated Internet of Things (IoT) solution for capturing data from IoT devices during the manufacturing process and saving the results for full traceability with the SAP Complex Assembly Manufacturing solution. The environment also includes Atlas Copco, GE Digital, Microsoft SQL Server, SAP Manufacturing Integration and Intelligence, and SAP ERP.	Tue, June 5: 12:30 – 01:30 p.m. – S310B

Session ID	Title	Abstract	Time and Location
<a href="#">ASUG11262</a>	3M: Business Innovation Without Disruption	3M runs a single global instance operating around the clock and cannot afford downtime. With help from SAP MaxAttention services, 3M deployed one of the largest functional rollouts with no disruption to the business by using the zero downtime approach. 3M is one of the first customers worldwide to deploy functional enhancements and software updates with minimal downtime.	Tue, June 5: 2:00 – 3:00 p.m. – S310B
<a href="#">ASUG11655</a>	AIG's Journey to SAP HANA and Amazon Web Services	In April 2017, insurance company AIG started a complete landscaping re-platforming from IBM DB2 on premise to the SAP HANA business data platform on private cloud on Amazon Web Services (AWS). Using various technologies, the team was able to migrate its SAP ERP Central Component, SAP Solution Manager, SAP Fiori UX, SAP Process Integration, SAP Master Data Governance, and SAP GRC solutions to AWS cloud.	Tue, June 5: 2:00 – 3:00 p.m. – S330H
<a href="#">ASUG11003</a>	Lessons Learned from SAP Agricultural Contract Management at Cargill	Cargill Inc. deployed the SAP Agricultural Contract Management application in the last two years, and the company has an exciting road map ahead. The solution is a success and is working well for this agricultural supply chain business. The presenters show what they have learned in the past years and how that can help other agricultural companies that are considering deploying SAP Agricultural Contract Management.	Tue, June 6: 3:15 – 4:15 p.m. – S330E
<a href="#">ASUG10632</a>	A Customer's Journey Implementing SAP S/4HANA	Our journey started with an upgrade from a highly customized SAP ERP system to SAP S/4HANA 1503. In Phase 1 we faced many challenges due to data integrity and the complexity of customizations. This drove the decision for Phase 2 to be a greenfield implementation of SAP S/4HANA 1610 with SAP Fiori user experience. We will share our lessons learned with the SAP S/4HANA suite and key challenges.	Wed, June 6: 11:00 – 12:00 p.m. – S310G
<a href="#">ASUG12115</a>	Identify the Perfect Timing for Your Digital Transformation with SAP Transformation Navigator	Discover how and SAP tool enables you to identify the best time to start your digital transformation journey. See the time slider function of the SAP Transformation Navigator tool in action and learn how it relates to SAP's renewed and exciting product and solution road maps. Find out more about SAP Transformation Navigator from the customer showcase presented by EPI-USE Systems Limited on behalf of Purdue University.	Wed, June 6 1:00 - 2:00 p.m. S319
<a href="#">ASUG11094</a>	Secure Supply Chain Through Serialization	Fraud and fake products cause immense damage to manufacturers in terms of lost sales and customer satisfaction. SAP Advanced Track and Trace for Pharmaceuticals and SAP Information Collaboration Hub for Life Sciences provide companies with the tools they need to identify products, track and trace products throughout the supply chain, and comply with government regulations.	Wed, June 6: 2:30 – 3:30 p.m. – S330C

<a href="#">ASUG11538</a>	Accelerating Early Engineering Product Lifecycle Costing with Machine Learning at AGCO	Learn how AGCO Corporation is using the SAP Product Lifecycle Costing solution at global scale in 11 sites to calculate and estimate new costs for new tractor models. See where AGCO has improved their process already, and gain an understanding where machine learning will boost them to the next level. Ultimately, SAP Product Lifecycle Costing and machine learning will enable AGCO to obtain better margins.	Wed, June 6: 2:30 – 3:30 p.m. – S331D
<b>Session ID</b>	<b>Title</b>	<b>Abstract</b>	<b>Time and Location</b>
<a href="#">ASUG11469</a>	FirstEnergy's Transformation to Establish a Customer Engagement Platform	FirstEnergy Corporation's 10 regulated distribution companies form one of the nation's largest investor-owned electric systems. The company needed a new platform to enter new markets and launch new products. Learn how it transformed its end-to-end customer-facing business, gained a 360-degree customer view, and increased speed to market with SAP Hybris solutions.	Wed, June 6: 4:00 – 5:00 p.m. – S330D
<a href="#">ASUG11819</a>	Simplify Development and Security Administration with SAP HANA Extended Application Services, Advanced Model	DowDuPont Inc. developed a data hub solution on SAP HANA 1.0 that focused on financial reporting. Upgrading to SAP HANA extended application services, advanced model with SAP Web IDE will help DowDupont further reduce administrative complexity and cost, improve security granularity, and simplify development effort. Higher efficiency across the whole IT process is expected after the upgrade.	Thu, June 7: 11:00 – 12:00 p.m. – S310G
<a href="#">ASUG10832</a>	BJ's Wholesale Club Embarks upon a Journey to Virtual Assistant	We are seeing a rise in the digital assistant concept. Using natural conversation to access data will liberate business users and customers alike. At BJ's Wholesale Club, we believe voice is the next user experience (UX) platform. Join us to learn about our UX journey as we march forward transforming our business from screen clicks to voice enabled.	Thu, June 7: 11:00 – 12:00 p.m. – S310D
<a href="#">ASUG11417</a>	Effective Planning and Scheduling Using SAP Multiresource Scheduling 9.0 at Newmont Mining	Newmont Mining deployed the SAP Multiresource Scheduling 9.0 application for better planning and scheduling of maintenance work orders. This session covers the software's demand view features, including leveling the work center capacities of contractors and employees, dynamically scheduling work orders, grouping work orders, checking material availability, using resource view features such as assigning tools, and more.	Thu, June 7: 11:00 – 12:00 p.m. – S310D
<a href="#">ASUG12077</a>	Roundtable: Tax Rebate Reporting Based on SAP Vehicle Insights	CITIC Pacific Mining uses the SAP Leonardo accelerator package for SAP Vehicle Insights to connect light vehicles and to monitor and report vehicle data for tax rebate calculation. The project consisted of a proof-of-concept phase, a minimum viable product (MVP) in agile delivery, and a first go-live, which took three months. The annual projected benefits are \$A1 million and are a good basis for further innovation.	Thu, June 7: 11:00 – 12:00 p.m. – Roundtable 4
<a href="#">ASUG11630</a>	Accelerating SAP S/4HANA Project with	DevOps comes to SAP! Zurich is one of the first organizations to go all-in with Solution Manager + Focused Build. Hear from the individual that led the selection/decision process together with	Thu, June 7: 12:30 – 13:30 p.m. – S220E

	SAP Solution Manager Focused Build	the individual leading the implementation: What are SolMan and Focused Build Business drivers behind ZNA's decision What a Focused-Build driven process looks like Steps in the adoption process Lessons from an early implementer

Session ID	Title	Abstract	Time and Location
<a href="#">ASUG10420</a>	Demand-Driven Digital Supply Chain Transformation with SAP Integrated Business Planning and SAP Ariba Solutions	In a high-tech industry with ever-evolving business models and customer expectations, the supply chain needs to be fast, agile, demand driven, collaborative, and responsive to customer and business needs efficiently. Microsoft embarked on a journey to transform its supply planning capabilities with the SAP Integrated Business Planning solution and with SAP Ariba solutions.	Thu, June 7: 2:00 – 3:00 p.m. – S330B
<a href="#">ASUG11202</a>	Industry 4.0: Digital Manufacturing at Caterpillar Using SAP Leonardo	Caterpillar Inc. embarked on a digital transformation called Live Factory, part of an overall industrial retail strategy to gather data from the shop floor, generate meaningful insights, and drive business decisions across its entire value chain. Caterpillar deployed SAP Leonardo IoT accelerator packages for SAP Digital Manufacturing Insights, SAP Predictive Maintenance and Service, and SAP Vehicle Insights.	Thu, June 7: 2:00 – 3:00 p.m. – S331A
<a href="#">ASUG11270</a>	Execution and Technical Implementation of SAP Promotion Management at BJ's Wholesale Club	BJ's use of the SAP Promotion Management application increases efficiencies in managing promotions and supports informed decision-making to select the most profitable offers. Learn about the SAP Promotion Management 8.2 technical landscape and project implementation, cloud-based deployment on Amazon Web Services, technical integration with SAP ERP Central Component, challenges, and guidance from SAP MaxAttention services.	Thu, June 7: 2:00 – 3:00 p.m. – S220E
<a href="#">ASUG10829</a>	SAP Hybris Cloud for Customer Enhances B2B Salesforce Effectiveness	Learn how to build B2B sales growth potential and increase productivity. BJ's Wholesale Club Inc. deployed the SAP Hybris Cloud for Customer solution for its B2B sales team to manage leads, accounts, contacts, and activities. Coupled with the sales and distribution module using SAP Cloud Platform Integration service and leveraging the SAP Fiori user experience, this approach enables easy adoption by the B2B sales team.	Thu, June 7: 3:30 – 4:30 p.m. – S330F
