

# SAP® Model Company for Insurance

The SAP® Model Company for Insurance service offers a ready-to-run, comprehensive reference solution of a core insurance platform. It is delivered with relevant business content, accelerators, and enablement services, helping you reduce costs, decrease risks, and accelerate adoption during discovery, exploration, and realization activities.

## Business Processes and Capabilities

### Product to Market

- Customer relationship management
- Product development
- Quotation management and underwriting
- Digital omnichannel
- Agent management

### Business to Claim

- Collections and disbursements
- Fraud detection
- Eligibility verification
- Subrogation

### Dashboards, Reports, and Sample Data

- Operational reporting
- Management reporting

### Sample Data

- Master data
- Transactional data
- Sample insurance products for life, property and casualty, and health

## Delivery Approach

### Preconfigured Solution

- Ready-to-run appliance with applications, configuration, and sample data
- System provisioning over the SAP Cloud portfolio, your preferred cloud provider, or on premise

### Business Content and Accelerators

- Business-process documentation
- Configuration guides, test scripts
- Master-data toolkit
- Simple product deployment
- Support for preconfigured, comprehensive processes

## When to Consider

- Discover the capabilities and innovations of a comprehensive SAP solution for your specific use case
- Prepare and explore using a ready-to-run system for enablement, fit-gap analysis, and solution design
- Support an agile and lean implementation approach with hands-on experience from day one
- Address resource bottlenecks in IT and business and reduce time and effort during realization

## Benefits

- Reduced costs and resource effort thanks to a preconfigured, ready-to-run solution
- Elimination of risk through proven reference-solution architecture and comprehensive process support
- Increased innovation adoption and decreased time to value through agile and lean principles
