SAP Model Company for Chemicals offers a comprehensive reference solution to support the processes of a chemical company with SAP S/4HANA®. It is delivered with relevant business content, accelerators, and enablement services, helping you reduce costs, decrease risks, and accelerate adoption during discovery, exploration, and realization activities.

Delivery Approach
- Preconfigured solution
  - Ready-to-run appliance with applications, configuration, and sample data
  - System provisioning over the SAP Cloud portfolio with your preferred cloud provider or in your sandbox

When to Consider
- Evaluate the capabilities of a comprehensive SAP solution for your specific use case
- Demonstrate a system for enablement, fit–gap analysis, and solution design
- Support an agile and lean implementation approach with hands-on experience from day one
- Address resource bottlenecks in IT and business and investigate ways to reduce time and effort

Benefits
- Reduced costs and resource effort thanks to a preconfigured, ready-to-run solution
- Elimination of risk through proven reference solution architecture and comprehensive process support
- Increased innovation adoption and decreased time-to-value through agile and lean principles
- Accelerated enablement and increased engagement
