Innovate and Pay

Supply chain is a key differentiator in today’s markets. It can help you achieve:

- Increase revenues and profitability by managing the supply chain better
- Improve customer experience by delivering products and services on time
- Lower costs by optimizing inventory, minimizing waste, and reducing transaction costs

Efficient procurement and payments are at the heart of a successful supply chain. SAP Ariba combines all your procurement tasks into one easy-to-use, intuitive, and scalable platform.

SAP Ariba Buying and Invoicing

Buy, sell, and receive with better visibility, governance, and compliance that align with your business goals.

- Procure and pay with confidence in your payment terms and agreements
- Manage contracts and related compliance
- Institute policy management and control
- Manage spend on services, products, and suppliers
- Drive downstream and upstream visibility into your operations

With Ariba, you can:

- Manage multiple suppliers
- Negotiate through e-auctions
- Align with your business policies and procedures
- Increase visibility of spend in your organization
- Control downstream compliance

SAP Ariba Supplier Relationship Management

SAP Ariba Supplier Relationship Management (SRM) helps your organizations source goods and services more efficiently.

- Build and manage supplier performance
- Improve visibility into your supply chain
- Source and manage suppliers
- Support a smarter, more efficient supply chain
