For organizations with solutions in multiple categories, we recommend SAP Learning Hub, professional edition.

*Training systems are not available for all courses.
The edition of SAP Learning Hub for procurement and networks is a comprehensive digital learning solution that helps novices and professionals alike become – and stay – proficient.

Follow interactive, visual Learning Journey guides that map recommended paths to build competency in supplier management, strategic sourcing, supply chain, procurement, services procurement and external workforce, and selling and fulfillment solutions from SAP.

Join social and collaborative SAP Learning Rooms, led by SAP experts, to exchange ideas and get advice through live sessions, video tutorials, best practices, blogs, and study materials for SAP solution certification exams.

Gain unlimited, 24x7 access to an abundance of learning resources, including video tutorials, knowledge assessments, delta training, soft skills e-books, and more. Get hands-on training on preconfigured software with 10 hours of access to the SAP Live Access portal and demonstrate your expertise through up to two online certification exams. All of this is included with your subscription to SAP Learning Hub, edition for procurement and networks.

Enable ongoing proficiency across all roles and skill levels, and **take the fastest route to success** with SAP Learning Hub, edition for procurement and networks.
