The professional edition of SAP® Learning Hub provides unlimited online access to a vast knowledge base of SAP expertise. Without the need for scheduling or traveling to training sessions, you can quickly obtain up-to-date training materials designed for your own specific needs. SAP Learning Hub, professional edition, is one of the fastest routes to project success for a variety of solutions.
What is SAP Learning Hub?

Designed for those working with SAP software, SAP Learning Hub is a highly effective enablement program that offers a wide range of social and collaborative tools and educational content for all skill and knowledge levels. A subscription gives you 24x7 anywhere, anytime access to an online social learning platform, where SAP experts and a community of more than 500,000 peers offer advice, guidance, and direction to relevant content, in addition to live sessions and many other learning resources.

What does SAP Learning Hub, professional edition, include?

The professional edition of SAP Learning Hub includes all Learning Journey guides, public SAP Learning Rooms, a vast library of self-paced digital learning resources, learning-management system functionality, and the option to purchase access to SAP training systems for hands-on practice through the SAP Live Access portal.

Guided skills-building begins with Learning Journey guides – interactive, visual maps illustrating recommended paths to full SAP software competency, or skill-level expansion for all roles and SAP solutions. You can follow a set of Learning Journey guides to quickly build solution competency, prepare for certifications, and expand your technical skills to help become an SAP software expert.

SAP Learning Rooms – social and collaborative online forums led by SAP experts – enable the exchange of ideas and deliver guidance and advice through live sessions, video tutorials, best-practice documentation, blogs, and more. Learning rooms also include study materials for certification exams for all SAP solutions.

As a subscriber, you have unlimited access to a wealth of self-paced learning resources for all SAP solution areas, including e-books, product data sheets, best practices, guides, video tutorials and recorded expert instruction modules, templates, and real-world simulations. Also included are knowledge assessments and complimentary access to the bookboon.com catalog of approximately 500 e-books to build soft skills in areas such as mentoring, leadership, and Microsoft Excel mastery.

Monitoring of learning progress is made possible with learning-management system functionality, including tracking of assignment completion and study-time logging.

You can also practice in an optional, live, fully supported software environment – SAP Live Access – preconfigured with data for completing course exercises in SAP Learning Hub.
What benefits do you gain with a subscription to SAP Learning Hub, professional edition?

The professional edition of SAP Learning Hub offers the most current and all-inclusive training content for professionals who are involved in various SAP software implementation projects. It streamlines enablement, accelerates user adoption, and reduces per-learner training costs through guided system design and adoption planning.

Whatever the learning goal for your SAP solution, SAP Learning Hub, professional edition, can help you reach it. Subscription to the professional edition of SAP Learning Hub offers the most comprehensive way to become – and stay – proficient in any SAP solution. You or your employees can enjoy the benefits of social learning from an online community of SAP solution experts and fellow SAP software users through SAP Learning Rooms. You have access to an up-to-date library of educational offerings, including Learning Journey guides, online courses, course e-books, and delta training. Staying current allows you to position yourself as a subject-matter expert able to deliver the best possible results, quickly and efficiently.

How can the professional edition help my organization?

There are numerous use cases for enablement, such as:
- Providing dynamic, cost-effective SAP software training for your SAP software professionals
- Training your SAP solution project team on topics related to an upcoming implementation
- Evaluating new SAP solutions or the latest release for project evaluation
- Retrieving in-project or day-to-day knowledge
- Preparing administrators to manage your SAP solutions on an ongoing basis
- Enabling skills updating and expansion on any SAP solution
- Using study materials to prepare for any SAP solution certification exam

In which languages is SAP Learning Hub, professional edition, available?

A large library of content is available worldwide in multiple formats, with a selection of it offered in up to nine languages, including English (all content), French, German, Spanish, Brazilian Portuguese, Chinese, Japanese, Korean, and Russian. (Note: not all content is available in all the languages listed.)
### What is SAP Learning Room?

SAP Learning Room is a unique social learning feature of SAP Learning Hub. It provides an interactive virtual space where you can address questions to knowledgeable SAP experts. You can also collaborate and network with fellow learners, work on challenging assignments, and review exercises.

In these online, expert-led SAP Learning Rooms, you experience knowledge sharing and learner guidance on specific SAP solution projects. The learning rooms include learner guidance and training paths, which allow you to find and stay on the path appropriate for your learning journey. They also include video tutorials, best-practice documentation, and live sessions, including scheduled features and functionality training to prepare you for every stage of your SAP software journey.

### What is the SAP Live Access environment?

Subscribers to the professional edition of SAP Learning Hub can purchase access to the SAP Live Access environment. SAP Live Access lets subscribers work with fully configured systems running SAP software to carry out class exercises, cross-training, and experimentation. You can purchase access to live software in the SAP Live Access environment through a 12-month subscription. Whether you’re preparing for a user engagement, studying for a certification exam, or just experimenting with SAP software, the environment is there for you whenever you need it.

### What is the SAP Learning Hub mobile app?

With the SAP Learning Hub mobile app, you can keep your SAP Certified Application Associate – SAP S/4HANA Cloud – Finance Implementation certification up to date anywhere, anytime. The app connects to your SAP Learning Hub account and allows SAP Learning Hub users, with an SAP Global Certification in SAP S/4HANA Cloud for finance, to maintain their professional SAP skills and keep their SAP Global Certification valid by taking the mandatory assessments right from their phone.

The app will help you to stay current with SAP S/4HANA Cloud for finance, but we plan to expand its scope. It can be downloaded from the App Store for iOS devices, but it will be available for other OS in time.

We will expand the app’s scope but right now it can help you to stay current with SAP S/4HANA Cloud for finance by:

- Managing and sharing your digital badge
- Improving your SAP skills with latest knowledge
- Keeping your SAP Global Certification valid by taking stay current assessments
- Receiving news and updates on the software and training opportunities
What are the differences between the private and public cloud version of SAP Learning Hub, professional edition?
The private cloud version accommodates a more customized experience, providing additional features to the already existing standard public cloud version, to deliver fully customized training. It allows single sign-on (SSO) setup, a customizable user interface (with own logo, colors, and background), uploading of your own content and curriculums, and system functions, such as assigning and pushing learning plans.

What management tools are included?
The public cloud version brings each learner a set of learning management capabilities for managing educational content. Learners can filter courses by delivery type, solution area, and difficulty level, and track the course completion and progress.

Additional management tools with the private cloud version* include:
• Ability to add custom-specific content (up to 50 learning titles)
• User interface customization using your own logo, colors, and background
• Access to learning reports and analytics with the adoption dashboard for SAP Learning Hub
• Creation of private, custom SAP Learning Room for private collaboration among learners and subject matter experts.

* Access to private cloud version requires a minimum subscription of 100 users.
